

Access LUCAS on Remote Labs

NOTE: Only use remote labs if you are experiencing issues accessing or using LUCAS from your personal device.

1. Log into Remote Labs following instructions here: [LU Remote Labs](#)
2. After logging in, select the > icon located beside the Support option.

3. Ensure that you select an option **not labelled as** "currently in use by 1 user."
4. Select an option provided as lucas.lincoln.ac.nz.
5. Re-enter the same password you used during the initial login to Remote Labs.
6. After the connection loads, wait a few moments, and LUCAS will open automatically.
Alternatively, you can use the LUCAS link located on the desktop.
7. Once you have finished logoff by clicking Start > Your name > Sign out
